Community

Community Platforms	MasterMind Games has a primary Telegram community with a secondary Discord community. We will use the Telegram for analysis.
Community Observations	<p>The Telegram's first post was 7 April 2022. Overall the conversation seems organic and within respect to the project.</p> <p>There does not seem to be any evidence of over exaggerated promises or extravagant statements and the team appears to handle themselves professionally with a casual vibe.</p> <p>At the time of this audit, 1408 users are in the Telegram. Out of those 1408 users, around 150 (10%) are "Deleted" accounts and a decent portion have no profile picture with hidden usernames which can likely mean they are bots. The Telegram does not appear to have botting conversation, so these accounts are likely just spammers, promoters, marketers that never got removed after their DM spam.</p>
Community Recommendations	Recommend cleaning up the user list.
