<b>Description, Mission, Vision</b> <i>Project's Statement</i>	While being powered by the Affinity Token, we have made a platform that removes the anxiety of sending crypto currency. ADAPT at its core will be a mobile app that is a peer-to-peer or business-to-business application that enables users to send cryptocurrency with the ease of a username, vice wallet address. Affinity is driven by its community and uniting DeFi. By rewarding two tokens we give you the ability to reinvest in whatever project of your choice.
