

DeFi
SKEPTIC

Referral Program

www.defiskeptic.com

Projects fall into two categories, pre-launch and post-launch.

Pre-Launch:

Best suited for all developer services. This is the time where projects may be ramping marketing, looking for KYC, Audits, Development, Design, etc.

Post-Launch:

Best suited for Project Vetting, though they may also need other services if not already acquired during the pre-launch phase.

Finding Pre-Launch Projects:

These are best found in AMA Lounges and Launch Listing Sites.

Finding Post-Launch Projects:

These are best found in AMA Lounges and CMC/CG latest listings.

Example Template

Hello _____ how are you. I was listening to your AMA at _____ and think you guys would be a good candidate to earn the DS Vetted badge. Additionally, DeFi Skeptic provides a full range of services for developers including coding, design, marketing, audits, kyc, and more. As a vetted project you get many benefits which are highlighted in the link below.

»Vetting Benefits/Overview
