Summary of Project Assessment

DeFi Skeptic conducted a preliminary review, live interview and post-interview validation/fact check of all data gathered which includes using various digital tools to look into the 7 categories our process covers. This report for Coinology was finalized on 22 September 2022. The Coinology team answered all questions and supplied additional information as requested to complete the vetting process. The Coinology team was responsive to requests to verify certain details after the interview. Coinology met or exceeded the standards set by DeFi Skeptic that qualify Coinology for listing on DeFi Skeptic.

We grade 30+ items across 7 categories within a project. Note, this assessment is the level of risk to the project and not to the potential investor. The below table is a purely subjective view from the DeFi Skeptic team. Please see the full disclaimer at the end of this document. Below is the risk analysis annotating where each category falls showing the number of items in each:

	No Risk	Low Risk	Moderate Risk	Not Assessed
Project Details	5			
Project Team	4	2		
Community	3			
Contracts	5			
Pairs & Liquidity	2	1		1
Wallets	3			1
Launch Details	5			

Overall Score

91.27%

Note:

Projects with high risk findings do not pass, thus this level is not included.

Items not assessed result in point reduction.
