## Community

<b>Community Platforms</b>	RocketFi has a primary Telegram community with a secondary Discord community. Telegram appears to be the most active.
<b>Community Observations</b>	<p>The Project first launched under the name EarnPay and later rebranded to RocketFi.</p> <p>There does not appear to be any evidence of over exaggerated promises or extravagant statements and the team appears to handle themselves professionally.</p> <p>At the time of this audit (1500 UTC), there are 1430 Telegram users and 108 online (7.5%). The Telegram does not appear to be bot loaded, however there were near 115 users who had not been online in over a month. These are likely DM spammers, promoters, marketers that didn't get deleted. The list was supplied to RocketFi.</p>
<b>Community Recommendations</b>	Recommend cleaning up the user list.
